

Lesson 5 Ending Activity:

Think about your favorite book from previous activities. Create three columns: Beginning, Middle, and End. Now, think of all of the things that happen in the story. Can you divide them up based on when they happen in the story?

Beginning

Middle

End

How would you draw what happens in your favorite story as a line? Think of Mr. Andrew's example in this video.

Use another piece of paper or a computer to answer these questions.
